

Web Wizard Extraordinaire

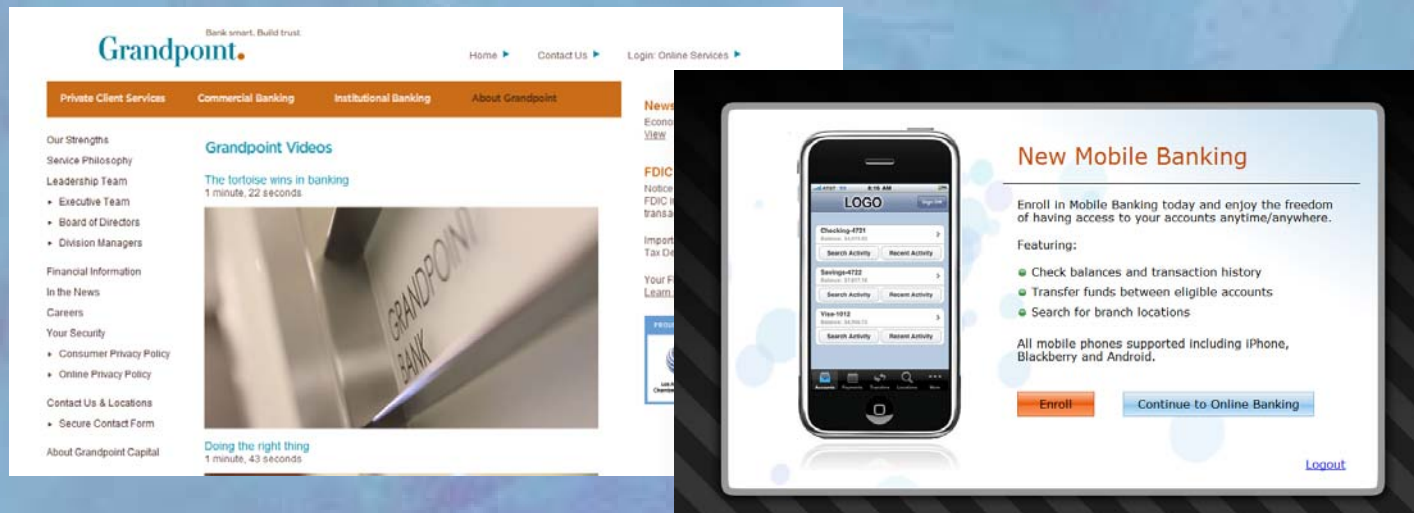

Cody Schneider

Cody.schneider@gmail.com

Core Skillset

- ↗ Accessibility, Performance, and Usability Best Practices
- ↗ Cross-browser, Device Independent (X)HTML/CSS/JavaScript
- ↗ jQuery Framework and Social Media APIs
- ↗ Responsive User Interface Development
- ↗ Professional Communication and Sales Experience
- ↗ Project Estimation and Management

Cross-Browser (X)HTML/CSS Web Development

The image illustrates cross-browser web development through three main components:

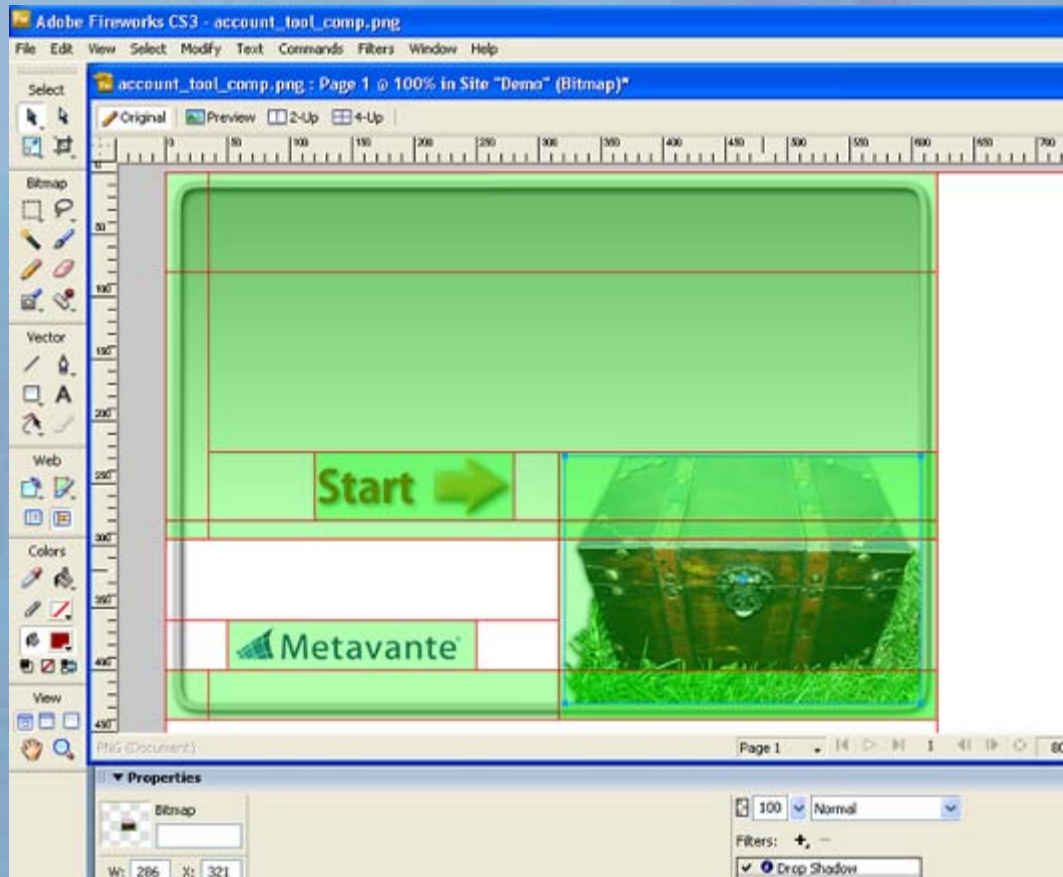

- Desktop Browser (Mozilla Firefox):** Displays a web form titled "[Overdraft Opt-In Form]". The form includes sections for "Customer Information" (First Name, Last Name, Phone Number, Email Address) and "Overdraft Account" (Account 1). It also contains explanatory text about overdraft fees and a link to a website.
- Smartphone (AT&T 3G):** Shows the same web form rendered on a mobile screen, demonstrating responsive design.
- Network Analysis Tool:** A "Scripts" panel showing a table of resource loads. The table includes columns for Type, Size, Time, and Latency.

Type	Size	Time	Latency
image/png	393B	47ms	152ms
image/png	2.32KB	84ms	228ms
image/png	589B	83ms	304ms
text/css	2.55KB	42ms	381ms

Hand coded HTML optimized for search engine rankings and accessibility

User Interface Design

Dynamic AJAX Web Applications built with Object Oriented JavaScript and the jQuery framework

```
Code account_tool.js - Aptana Studio Community Edition
File Edit HTML Tidy Navigate Search Project Run Hosting Scripts Window Help

about.htm index.html idtheft_contacts.html

?id /% for #) if try DB js log flt

25 // $('#img[src$=.png]').ifxpng();
26 });
27
28 //***** Navigation Object Definition
29 navigation = {
30 //Defines final page
31 lastPage : '#page4',
32 init : function() {
33 $('#page').hide();
34 $('#page1').show();
35 },
36 next : function(obj) {
37 if ($('#(obj).parents('.page').is(this)
38 $('#(obj).parents('.page').hide();
39 $('#(obj).parents('.page').next('.page'
40 } else {
41 this.showResults();
42 analysis.start('lib/accounts.xml');
```

Next we need some specific financial info.

How much money, on average, will you keep in this account?

Less than \$50

Which would you prefer? ☐ Higher Interest ☒ No Fees

How much will your initial deposit be?

Less than \$50

DotNetNuke Content Management and Web Application Framework

The image displays three overlapping screenshots of web applications built using the DotNetNuke framework, illustrating its versatility in content management and web application development.

Top Screenshot: SAVOY BANK
This interface shows a user management or content editing screen. It features a sidebar with navigation links: ADMIN, SPLASH ADMIN, HOME, BUSINESS BANKING, LOAN CENTER, ONLINE SERVICES, PERSONAL BANKING, ABOUT SAVOY, WE'RE NYERS, and VIP BANKING. The main content area includes a header with 'FORGET HAVING A RELATIONSHIP WITH A BANK. HAVE A RELATIONSHIP WITH A BANKER.' and a sidebar with a list of user roles and permissions.

Middle Screenshot: Carrollton Bank
This screenshot shows a public-facing website for Carrollton Bank. It includes a header with the bank's logo and tagline 'We're about people. We're about you.' Below the header, there are sections for 'PERSONAL BANKING' and 'BUSINESS BANKING'. A search bar is visible on the right, and a login section for 'PERSONAL ONLINE BANKING' and 'BUSINESS ONLINE BANKING' is located at the bottom right. A featured image of a robin is also present.

Bottom Screenshot: Commerce Bank of Arizona
This screenshot shows a public-facing website for Commerce Bank of Arizona. It features a header with the bank's logo and navigation links. The main content area is divided into sections for 'Online Banking Log in', 'Business Banking', 'Consumer Banking', and 'Real Estate Leading'. A sidebar on the left contains links for 'More Online Banking' and 'Quick Links'. The bottom section displays a list of recent submissions or messages, including details like 'Submission Date', 'Recipient', and 'Message Subject'.

Project Management

- ✓ Consistently meet deadlines
- ✓ Manage multiple parallel projects
- ✓ Coordinate efforts with clients and 3rd parties
- ✓ Prioritization of projects goals

The screenshot displays the 'FIS Website Services' dashboard for user 'Cody Schneider'. The interface includes a top navigation bar with links for 'My Info', 'Sign out', and 'HELP'. Below this is a secondary navigation bar with tabs for 'Dashboard', 'To-Dos', 'Calendar', 'Time', 'Search', and 'Templates'. The main content area is titled 'Cody Schneider's to-do items across all projects' and features a dropdown menu to filter items by user (currently set to 'Me (Cody Schneider)') and a 'due' filter (set to 'Anytime').

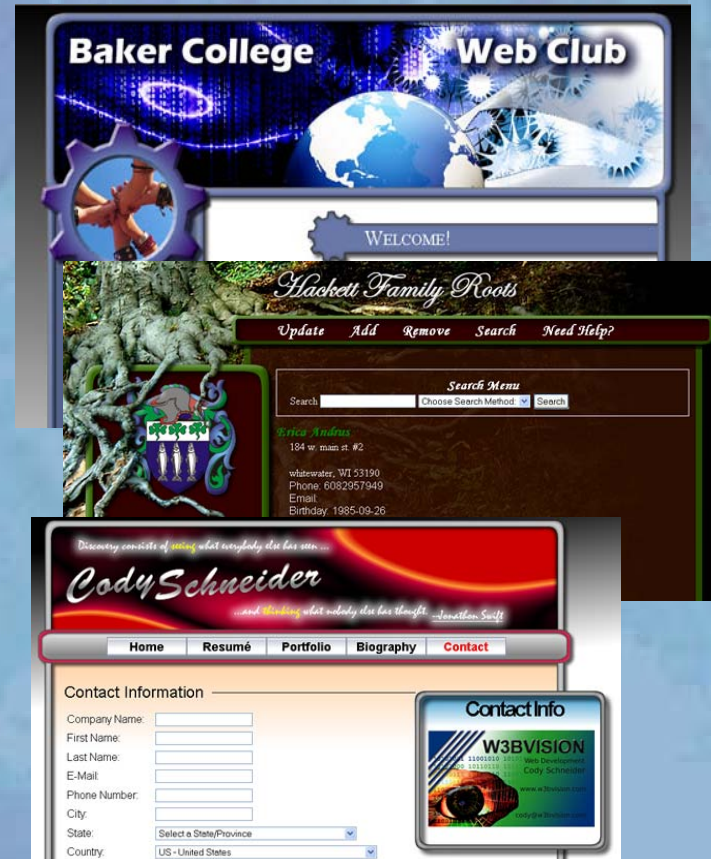

The to-do items are organized into three sections:

- FIS — X Cases & Maintenance Requests**
 - [Commerce OAC Implementation](#) ☐ Website Implementation Due 10 Jun 2011
 - [Cambridge OAC Implementation](#) ☐ Sell Page Build Due 22 Apr 2011
 - ☐ Launch OAC Due 6 May 2011
 - [Cody](#) ☐ R110178227 - Florida Community, location search
